

## City of Clovis Founders' Day 2023

On Thursday, April 20, 2023, City of Clovis staff hosted over 200 third grade students from Mickey Cox and Gettysburg Elementary at the Civic Center in celebration of Founders' Day – Clovis' birthday on February 27th. As the event had to be rescheduled from February 27th to April 20th due to weather concerns, Weldon Elementary was unable to attend with the rescheduled date.

During Founders' Day, the students learned about local government and met Mayor Pro Tem Vong Mouanoutoua in the City Council Chamber, and they had an opportunity to interact with staff from all departments throughout the Civic Center campus. Each department presented educational activities in their sections of local government and shared with the students future career opportunities. The Fresno County Library also participated in this event with their staff encouraging students to read and sharing information on the library.

This first-ever Founders' Day event was a big success thanks to the hard work and support of over 40 staff members from all departments, the teachers, schools, and Clovis Unified School District. Attached are photos of the event.
